Customer Information on Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR)

Dear Sir or Madam,

Thank you very much for your inquiry regarding Regulation (EU) 2025/40 on Packaging and Packaging Waste (Packaging and Packaging Waste Regulation – PPWR).

Sensor-Technik Wiedemann GmbH (STW) is addressing the requirements arising from the PPWR with regard to the packaging we use and place on the market.

STW is closely monitoring further regulatory developments and will implement the applicable requirements of Regulation (EU) 2025/40 in accordance with the relevant statutory deadlines.

The specific obligations under the PPWR depend, among other things, on the type of packaging in question and on the role of the relevant economic operator within the supply chain. A blanket declaration of conformity for all packaging used by STW is therefore not intended.

To the extent that STW is responsible for a type of packaging as a producer within the meaning of Regulation (EU) 2025/40, the required conformity assessment is conducted in accordance with legal requirements, and the prescribed EU declaration of conformity for the respective type of packaging is issued.

Upon request, we provide our customers with the information necessary for the respective business relationship. To the extent that STW is the producer of the packaging in question, the corresponding EU Declaration of Conformity may be made available for review once all information from the supply chain is available.

For packaging, for which responsibility for the conformity assessment lies with another economic operator within the supply chain, we rely on the corresponding information and supporting documentation provided by our suppliers.

Best regards,

Sensor-Technik Wiedemann GmbH
